Dear Mr. Jensen:

Thank you for forwarding the necessary forms for us to conduct the SMO on our State Lease ML-41981.

We would like to begin initial work on the above captioned state lease in mid October. It is our intention to mine and stockpile 250 tons of perlite and transport as our production schedule permits, to our crushing and screening facilities for testing purposes. Work is scheduled to complete in December 2000. This work will be done at the existing quarry site and no new surface disturbance or roads will be necessary.

I am forwarding duplicate information to Mr. John Blake of SITLA.

Thank you very much for your assistance.

Sincerely,
WORLD MINERALS INC.
